ABOUT US

FACT (Florida Assertive Community Treatment) is an intensive outpatient mental health program that provides services 24 hours a day, 7 days a week. It is based on a nationally-recognized, evidence-based treatment model known as PACT (Program of Assertive Community Treatment). FACT team members help our clients address every aspect of their life: medication, therapy, social support, employment, and housing.

GOALS

Lessen or eliminate the symptoms of severe mental illness

- With the use of therapy, medications and other services.

Minimize or prevent episodes of acute mental illness

- By helping individuals identify precursors, stressors and symptoms.

Increase quality of life & independent living arrangements

- By helping individuals achieve their goals and teaching life skills to help individuals live independently.

Improve Social Functionality

- By working with individuals in the community.

Improve Employment Relations

- By helping individuals find employment

Meet basic needs

- Helping individuals find and afford housing

Decrease or prevent hospitalizations

- By working with clients every day to keep up with their treatment

If you or a loved one are interested in services with the FACT Program, give us a call today.

SERVICES

The FACT Program at Apalachee Center offers a wide range of integrated services that all work together to help our clients.

Psychiatric Evaluations/Medication Management

- Our APRNs (Advance Practice Registered Nurse) meet with clients monthly to assess, diagnose and treat symptoms. They also monitor the non-psychiatric medications and work closely with the primary care physicians.

Case Management

- With a team of qualified care managers, FACT maintains a low client/staff ratio to better serve our population.

Health Checks and Medication Injections

- Registered Nurses (RNs) manage and administer medications. They also screen for other health problems and coordinate services with other providers.

Peer Support

- With professionals who have gone through similar circumstances, we offer coaching and consultation services and recovery strategies.

Mental Health and Substance Abuse Treatment

- Our counselors and therapists provide integrated dual diagnosis treatment, outreach, and relapse prevention.

Vocational Rehabilitation Services

- A dedicated vocational rehab specialist provides supported employment services, including job development, job placement and job coaching services.

ELIGIBILITY

Individuals who qualify for FACT services have:

- A severe and persistent mental illness
- Significant functional impairments
- A history of frequent or lengthy hospitalizations and/or substance use
