

OUR HISTORY

Apalachee Center, Inc. has served the Tallahassee community since 1948. In 1977, services were expanded to include the surrounding seven counties, resulting in a service area that now spans across 5,500 square miles. We serve approximately 7,500 clients each year and employ over 500 individuals throughout our many facilities.

We are currently the largest community mental health center between Pensacola and Gainesville. We serve as intern/resident sites for both Florida State University and Florida Agricultural and Mechanical University in areas that include pharmacy, psychiatry, social work, nursing, and psychology.
